Fund Objective

The BMA Chundrigar Road Savings Fund seeks to provide its investors with an attractive rate of return by investing in all fixed income and money market instruments of medium risk and short duration. The fund will seek to maintain a rupee weighted average maturity for the investment portfolio of not more than 5 years.

Fund Commentary

During December-17, the fund posted a return of 4.98% against the

benchmark return of 6.49%, underperformed by 151bps. The

current allocation of the fund is as follows: 82.81% invested in Cash,

5.41% invested in PIBs and 7.90% placed with a Bank as TDR.

Portfolio's standard deviation was 0.02% . Portfolio weighted

average maturity was at 58.09 days. Based on recent developments

at macro front, we believe that current allocation is quite attractive.

However, we will rebalance the same incase of any uncertain event.

The fund's portfolio is more inclined towards daily products, short

tenor investments and floating rate instruments.
